

The Department for Education has brought together an initial list of online educational resources to help children to learn at home. These websites have been identified by some of the country's leading educational experts and offer a wide range of support and resources for pupils of all ages.

PE

Real PE at home – online learning resources.

It is really important that we encourage children to keep active whilst at home. Real PE – a scheme we use at Woodford – have produced an online programme which supports families to be active, play and learn together. It includes a programme specifically for children in Early Years and Key Stage 1 with 12 themes, 6 areas, over 250 activities and challenges and 1000s of hours of fun and activity. This programme is also great for family play and fun.

It also includes a programme for children in Key Stage 2, with daily and weekly guidance provided for both programmes, in addition to an option to choose your own themes and activities.

There are so many benefits to being active, not only to our physical wellbeing but also to our emotional and mental health. We hope that the ideas help support you and your family to stay fit and healthy in the coming months.

Here are the details to access real PE at home:

home.jasmineactive.com/login ('Real PE' resources - online programme which supports families to be active, play and learn together. For access, please use - Parent email: parent@woodfordpr-1.com and Password: woodfordpr)
